**DETAILED ACTION*****Election/Restrictions***

1. Claims 9, 11 and 25 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 6-8, 12 and 26-34 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claims 35-44 remain withdrawn from consideration since the claims do not depend upon or otherwise include all the limitations of an allowed generic claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Art Unit: 3731

3. This application is in condition for allowance except for the presence of claims 35 to 44 non-elected without traverse. Accordingly, claims 35 to 44 have been cancelled.

*Allowable Subject Matter*

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest a surgical instrument comprising at least one cutting element transitionable between a retracted configuration and an expanded configuration and a tapping thread defined on said elongate member. This limitation, in combination with all of the limitations of claim 9, makes the claim allowable over the prior art.

The prior art of record fails to disclose or suggest a surgical instrument comprising a first cutting element comprising a tapping thread; and a second cutting element that is transitionable between a retracted and expanded configuration. This limitation, in combination with all of the limitations of claims 11 and 18, makes the claims allowable over the prior art.

The prior art of record fails to disclose or suggest a surgical instrument comprising a first cutting element adapted to be self-tapping and self-drilling; and a second cutting element that is transitionable between a retracted and expanded configuration. This limitation, in combination with all of the limitations of claim 14, makes the claim allowable over the prior art.

The prior art of record fails to disclose or suggest a surgical instrument comprising a tapping thread; and a cutting blade that is transitionable between a retracted and expanded configuration. This limitation, in combination with all of the limitations of claim 20, makes the claim allowable over the prior art.

The prior art of record fails to disclose or suggest a surgical instrument comprising a means for tapping threads; means for forming an enlarged cross-sectional portion; and means for transitioning the means for forming between a retracted and expanded configuration. This

limitation, in combination with all of the limitations of claim 24, makes the claim allowable over the prior art.

The prior art of record fails to disclose or suggest a surgical instrument comprising a tapping portion and an expandable portion having at least one cutting element. This limitation, in combination with all the limitations of claim 25, makes the claim allowable over the prior art.

The prior art of record fails to disclose or suggest a surgical instrument comprising a tapping element and at least one cutting element transitionable between a retracted configuration and an expanded configuration. This limitation, in combination with all of the limitations of claim 56, makes the claim allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
